

## **EPI LAUNCHES THE PROJET R&D WITH TOXSORB ISRAËL**

**12 april 2014**

**Eau Pure International** in collaboration with its partner Toxsorb in March 2014 Israel launched an R & D with the goal of developing a new technology for arsenic removal in effluents laden toxic.

The place of Salsigne, old gold mine operated by BRGM, experimentation is the place to give up on this project funded by BIS.
